

Donation Requests

Thank you for your request for a donation from Country Bookshelf. As a local, independent bookstore, we value all the efforts to make Bozeman and Southwest Montana a better place. We especially value efforts to increase literacy, get books in the hands of kids, and promote reading and talking about books in our community as we believe that books help to make the world a better place.

We receive dozens of donation requests every year, and to better focus our giving and our time, we have established new guidelines for responding to those requests. We wish we could donate to all worthy causes, but since we are just one small business, we do have to make choices.

We will consider donation requests made in writing or by email once per month. To be considered, please submit your request prior to the last Tuesday of the month. We will then notify the contact person by the end of the last week of the month if we will be able to donate to your organization and arrange for pick up of the donation. Please note that we do not make cash donations or sponsorships. Books donated may include slight damage or may be restricted from return/exchange.

Please take a moment to fill out our donation request application with as much detail as possible, or email the requested information to ariana@countrybookshelf.com ATTN: Donation Request. You may include additional information (brochures, letters, leaflets, donation forms).

Date of Request: _____ Date of Event (if applicable): _____

Name of Organization/Name of Event: _____

Website: _____

Is this organization a registered non-profit? _____ If not, please explain.

Who benefits from the organization or event?

How does your event or organization relate to literacy or otherwise match with the goals and philosophies of Country Bookshelf? Why are we a good match for your program?
